Subject: I will be arriving on Tuesday March 25 @1:00 PM to view the field activities

Rob,

When we last spoke I mentioned that I would be visiting the site to oversee the installation of the extraction wells during the week of March 25-27. I will be spending the afternoon on Tuesday at the site and the morning of Wednesday March 26. The field contact for this work according to the work plan will be Jesse Stewart, MWH. Is he still the contact? If Jesse is not the contact please let me know who will be the contact for these activities for MWH, when you can. I also understand that Paul DesFosses a sub to BAH will be performing oversight for us, EPA.

I just wanted to let you know that I'm going to the site and I'm sure Kevin has mentioned that to Barbara Ritchie.

Bernie
